

The Federal Communications Commission

Dear The Federal Communications Commission,

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. This is unfair.

I use my wireless phone rarely. I don't want to pay more so that big businesses can pay less. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Sincerely,

Robert Johnson
